

Vormetric Transparent Encryption

Patch Release Notes for Linux Agents

- **Release: 6.3.1.47**
- **Date: June 22, 2020**

New Kernel Support

The following kernels are supported with VTE 6.3.1.47.

Ubuntu 18.04

- 5.3.0-59-generic
- 4.15.0-106-generic

Ubuntu 16.04

- 4.15.0-106-generic
- 4.4.0-184-generic

Resolved Issues

- **AGT-28451 [CS0980110] - Systems with Docker and VTE crashing**

This patch fixes a potential issue with mishandling of certain docker volume paths. This issue may have an adverse effect on other operations running on the system.

This issue is fixed in this release of the VTE Agent. Thales strongly recommends upgrading VTE to this patch if Docker volumes are in use.

- **AGT-28555 - Teradata external metadata directory needs to be relocated**

Relocation of the external metadata directory for IDT-Capable GuardPoints is required in a Teradata Database environment.

In this release of the VTE Agent, the external VTE metadata directory for IDT-Capable GuardPoints in Teradata environments has been relocated to a different directory. For details, see Version 2 of the *VTE Agent Installation and Configuration Guide* for 6.3.1.

Documentation Changes

Minor updates have been made to the following chapters in the *VTE Agent Installation and Configuration Guide* for VTE version 6.3.1:

- Chapter 20: Efficient Storage
- Chapter 21: InPlace Data Transformation for Linux
- Chapter 22: VTE with Teradata Database Appliances

Version 2 of the *VTE Agent Installation and Configuration Guide* is available on the Thales support website.

Sales and Support

If you encounter a problem while installing, registering, or operating this product, please refer to the documentation before contacting support. If you cannot resolve the issue, contact your supplier or Thales Customer Support.

Thales Customer Support operates 24 hours a day, 7 days a week. Your level of access to this service is governed by the support plan arrangements made between Thales and your organization. Please consult this support plan for further information about your entitlements, including the hours when telephone support is available to you.

Notices and License

All information herein is either public information or is the property of and owned solely by Thales DIS France S.A. and/or its subsidiaries or affiliates who shall have and keep the sole right to file patent applications or any other kind of intellectual property protection in connection with such information.

Nothing herein shall be construed as implying or granting to you any rights, by license, grant or otherwise, under any intellectual and/or industrial property rights of or concerning any of Thales DIS France S.A. and any of its subsidiaries and affiliates (collectively referred to herein after as "Thales") information.

This document can be used for informational, non-commercial, internal and personal use only provided that:

- The copyright notice below, the confidentiality and proprietary legend and this full warning notice appear in all copies.
- This document shall not be posted on any network computer or broadcast in any media and no modification of any part of this document shall be made.

Use for any other purpose is expressly prohibited and may result in severe civil and criminal liabilities.

The information contained in this document is provided "AS IS" without any warranty of any kind. Unless otherwise expressly agreed in writing, Thales makes no warranty as to the value or accuracy of information contained herein.

The document could include technical inaccuracies or typographical errors. Changes are periodically added to the information herein. Furthermore, Thales reserves the right to make any change or improvement in the specifications data, information, and the like described herein, at any time.

Thales hereby disclaims all warranties and conditions with regard to the information contained herein, including all implied warranties of merchantability, fitness for a particular purpose, title and non-infringement. In no event shall Thales be liable, whether in contract, tort or otherwise, for any indirect, special or consequential damages or any damages whatsoever including but not limited to damages resulting from loss of use, data, profits, revenues, or customers, arising out of or in connection with the use or performance of information contained in this document.

Thales does not and shall not warrant that this product will be resistant to all possible attacks and shall not incur, and disclaims, any liability in this respect. Even if each product is compliant with current security standards in force on the date of their design, security mechanisms' resistance necessarily evolves according to the state of the art in security and notably under the emergence of new attacks. Under no circumstances, shall Thales be held liable for any third party actions and in particular in case of any successful attack against systems or equipment incorporating Thales products. Thales disclaims any liability with respect to security for direct, indirect, incidental or consequential damages that result from any use of its products. It is further stressed that independent testing and verification by the person using the product is particularly encouraged, especially in any application in which defective, incorrect or insecure functioning could result in damage to persons or property, denial of service or loss of privacy.
